**Windows into the Future:**

At their Nov. meeting, the Deacons unanimously approved a motion to set up a special fund for repair and replacement of the windows in our old building. Look around the building and you will see broken windows,

rotting sills, windows that are about to fall out, and bulging walls created by broken lintels. The need for new windows is urgent! We are inviting contributions to a window fund to bring our windows up to date, thus enhancing the appearance of our building and cutting the cost of heating and air conditioning. To replace a complete window (the window, the sill, and the lintel) is \$1400, but we certainly welcome contributions of any amount to the window fund. This would be a great

way for Sunday School classes, WMU groups, youth groups, or families to honor or remember a loved one. You may write a check for any amount to Hampton Baptist Church, put "Window Fund" on the memo line, and place in the offering plate.

### **William G. Batte, Sr., Ph. D**

Another from the Greatest Generation has passed, William G. Batte, Sr., Ph.D., at age 91 in Williamsburg, VA, following a brief illness. Known to his friends while growing up in Jarratt, VA, as "Billy-Gid", and otherwise known as William or Bill to others, he was an accomplished pianist and musician from an early age. William organized performing swing bands during his high school years, known as "Billy Batte and his Wings of Rhythm", which carried over into his college years at Virginia Polytechnic Institute (VPI, now Virginia Tech). Obtaining BS degrees in Electrical Engineering and Industrial Engineering, with recognition in the Phi Beta Kappa honorary society, graduate studies in Electrical Engineering were performed at the University of Virginia and subsequently earned his Ph.D. in Electrical Engineering (Computer Circuitry design) from Case Western Reserve in Cleveland, Ohio. William's notable professional career began at NASA as he was actively recruited to head a team to design and implement satellite tracking stations worldwide in anticipation of project Mercury and putting a man in space. William subsequently became division chief of the Data Reduction computer facility at NASA Langley. After leaving NASA, William became a full professor in Electrical Engineering for computer circuitry design at the University of Virginia. The final phase of his professional career was devoted to his technical consulting company and real estate interests.

At a personal level, Bill was known to his friends as always the quintessential polite Southern gentleman, kind and gentle, who maintained his wit and dry sense of humor to his final days. He is survived by his son, W. Granville Batte, Jr., M.D., daughter Sharon Kay Batte, and preceded by his wife of nearly 50 years, Nancy Parker Batte, also of Jarratt, VA, brother, John Feild Batte, Jr., and sister Hazel Batte Nelson. Bill and his music will be deeply missed by all who have known and loved him. May he rest in peace.

There will be a Memorial Service held at WindsorMeade in Williamsburg on Saturday, Feb. 9 at 9:30 a.m. All are invited to attend. Dad wasn't big on flowers, but loved cards, so in lieu of flowers please feel free to send a card to the address below. Thanks for your support, Granville
